1. Feedback Process

1.1 Feedback Collection

To get an overall idea on curriculum and other relevant aspects, the university has established feedback system through the close ended structured questionnaire via Google forms. Feedback is collected from stake holders which include students, alumni, employers and parents. Feedback is collected from the students on curriculum, teaching and learning twice in a year, it focuses on the course objectives, general observations, skill development, innovations and methodology, commitment and command & help and motivation. Students feedback on institutional facilities is collected once in a year which targets the overall facilities and ambience of the University. Feedback from recruiters, alumni and parents are taken once in year on curriculum development and overall improvement of teaching learning process. The feedback is collected through a questionnaire in a scale of 5. The feedback analysis committee of the University designs and collects feedback from its stakeholders to monitor and evaluate its performance quality on curriculum and curriculum related issues.

Feedback Analysis:

The data collected by the IQAC was sorted and consolidated for drafting the analysis report. The data entered in the selected format was then converted into chart form and decoded for the proper comprehension of the matter. The analysis is done year wise as well as parameter wise. The aspects pointed out by all the stakeholders are considered with special care and attention. The Feedback analysis committee discussed and evaluated the suggestions received from different spheres regarding the curriculum. The suggestions were consolidated to communicate to the respective University authorities for necessary action. Proper suggestions were formulated to be communicated to ensure the proper redressal of the grievances. The quantitative analysis is done on the basis of the score while the qualitative analysis is done on major opinions and suggestions given by different stakeholders.

2. Students Feedback on Teaching & Learning

2.1 Feedback analysis of students' Responses

Frequency per Year- 02

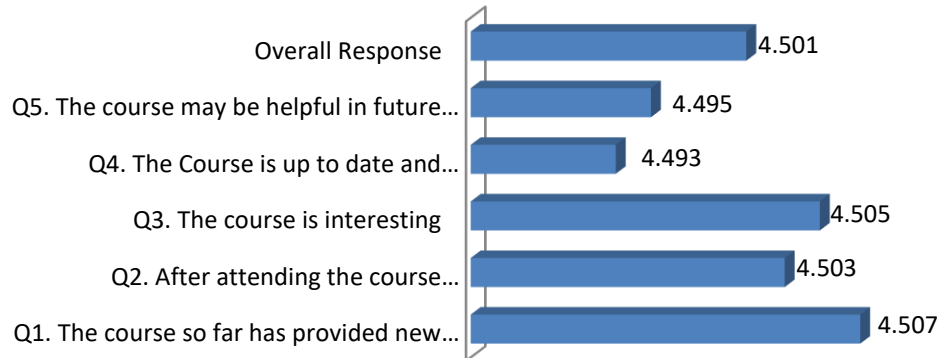

The students were asked to provide feedbacks in terms of rating against different criteria associated with course content and outcomes, teaching learning process as well as institutional facilities. The different criteria points associated in this regard are mentioned in the below table and analysed for further action.

Table 1: Questions and Average Performance based on students' Response

8. Analysis of Feedback:

- Feedback on Student's access to research and development facilities of the School was moderate.
- Responses in regards learning ambience in hostel and staff was average.
- Feedback on student societies in context to their inviting ambience, internet and medical services was moderate.
- Parents are overall satisfied; average response was on support services (Transport, Canteen etc.) and effectiveness of grievance redressal.
- Alumni responses was general; average response on their proficiency in technical areas, application of learning to solve complex issues, innovate, predict changes globally.
- Employers had average responses on technical, communication, and teamwork skills of the graduates. Further they had moderate responses on students' interest, creativity, reliability noted; workplace problem-solving capacity.

9. Action Taken Report (ATR) Based ON Feedback 2021-22 Report

In response to the feedback received from employers and stakeholders, the University has undertaken the following actions:

1. Integration of Emerging Technologies in Curriculum

The curriculum has been revised to incorporate emerging concepts such as Industry 4.0, 5G, and the Internet of Things (IoT). Specialized modules, elective courses, and value-added programs have been introduced to equip students with contemporary technical knowledge aligned with industry requirements. Guest lectures and workshops by industry experts are also being conducted to strengthen practical understanding.

2. Inclusion of Social Science-Oriented Subjects

To ensure holistic development, select courses from social science domains have been incorporated into the curriculum. These courses focus on areas such as ethics, sustainability, communication, and societal impact, enabling students to develop a broader perspective alongside technical competence.

3. Promotion of Multidisciplinary Conferences and Seminars

The University has increased the number of conferences, seminars, and workshops focusing on multidisciplinary research themes. Departments are encouraged to collaborate in organizing such events, thereby fostering interdisciplinary dialogue, research collaboration, and knowledge exchange among faculty, researchers, and students.

10. Action to be Taken for The Next Academic Year

- School heads should communicate procedure to access school's research and development facilities to students. They also should take special initiative to enhance the proficiency level of students in their creativity, application of learning to solve complex issues and predict changes globally.
- Hostel administration should enhance the learning ambiance in hostel and staff should be counseled to be student friendly.
- Student/ Technical Societies should create an inviting atmosphere to accept student ideas.
- Grievance redressal procedures and its effectiveness should be properly communicated to students and parents by Grievance cells of the University.
- Training and Placement Cell should take more initiatives to enhance the technical, communication, workplace problem-solving capacity and improve teamwork skills of the graduates.
- Strengthen research initiatives in emerging areas such as Artificial Intelligence, remote sensing, and disaster management, as suggested by alumni.
- Enhance university–industry collaboration within India through MoUs, internships, and joint projects.
- Introduce additional foreign language courses to cater to student demand and improve global employability.
- Incorporate vocational courses, similar to open electives, into the B.Tech curriculum to enhance practical skills.
- Encourage and provide financial support to students for obtaining memberships in professional bodies such as IET and IEEE.

Dear Parent,

Greetings from the KIIT University!

KIIT, Deemed to be University is one of the most prestigious Institutions in India. Apart from global recognition and pedagogical excellence, the Institution provides the best possible academic and non-academic grooming, and empowerment that enable the students to become global citizens. Being a member of our family, we request you to give your valuable feedback / suggestions which will be incorporated in our quality enhancement program.

You are requested to give your valuable Feedback based on your observation and experience by putting a tick (✓) mark in the appropriate box.
